OUR STORY

Kosmo Solar was founded with a clear vision: to make **clean, reliable, and high-performance solar energy** accessible to homes, businesses, and industries.

From the very beginning, our mission has been to deliver **European-quality solar solutions** that combine advanced technology, exceptional reliability, and long-term value.

Today, Kosmo Solar continues to support the transition toward **sustainable energy** by providing **premium photovoltaic systems, professional engineering, and dedicated customer support** throughout every stage of each project.

OUR CORE VALUES

Innovation - We embrace advanced technologies that drive better performance.

Quality - We deliver products that meet the highest international standards.

Reliability - We build long-term partnerships based on trust.

Sustainability - We contribute to a cleaner and more energy-efficient future.

Customer Focus - Every solution is tailored to our clients' needs.

KOSMO SOLAR: EXCELLENCE ABOVE ALL

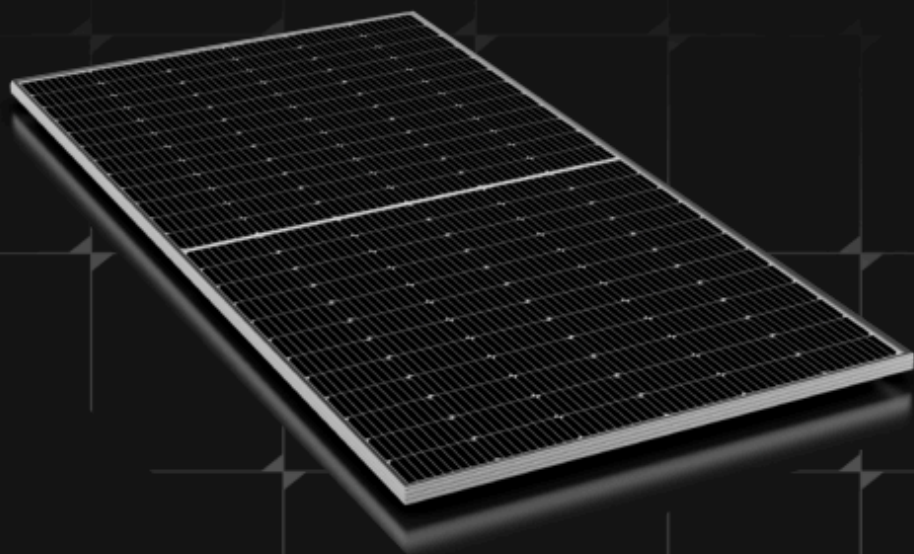

At Kosmo Solar, we specialize in the production of **high-performance solar panels** designed to provide **sustainable energy solutions** for residential and commercial rooftops, as well as large-scale solar plants. By leveraging cutting-edge technologies, we deliver affordable solar modules that meet the **highest quality standards** and ensure optimal performance for years to come. Our solar panels are engineered for **maximum efficiency** and reliable energy solutions, built to withstand the test of time with minimal maintenance.

With a **30-year lifespan**, our panels offer a **durable and cost-effective** energy solution, helping you achieve long-term savings while reducing your carbon footprint. At the heart of our design philosophy is a commitment to creating products that are not only efficient but also **eco-friendly and dependable**, ensuring lasting performance in **both residential and commercial settings**.

Available from 450 to 700 watts, Kosmo panels are engineered for residential, commercial, industrial, and utility-scale projects. Advanced manufacturing and premium materials come together to deliver **high efficiency, dependable energy output, minimal maintenance, and lasting performance** — in any climate.

PRODUCT **LINES**

KS(500~520W)-120MBB

KS(580~600W)-144MBB

KS(590~620W)-144MBB

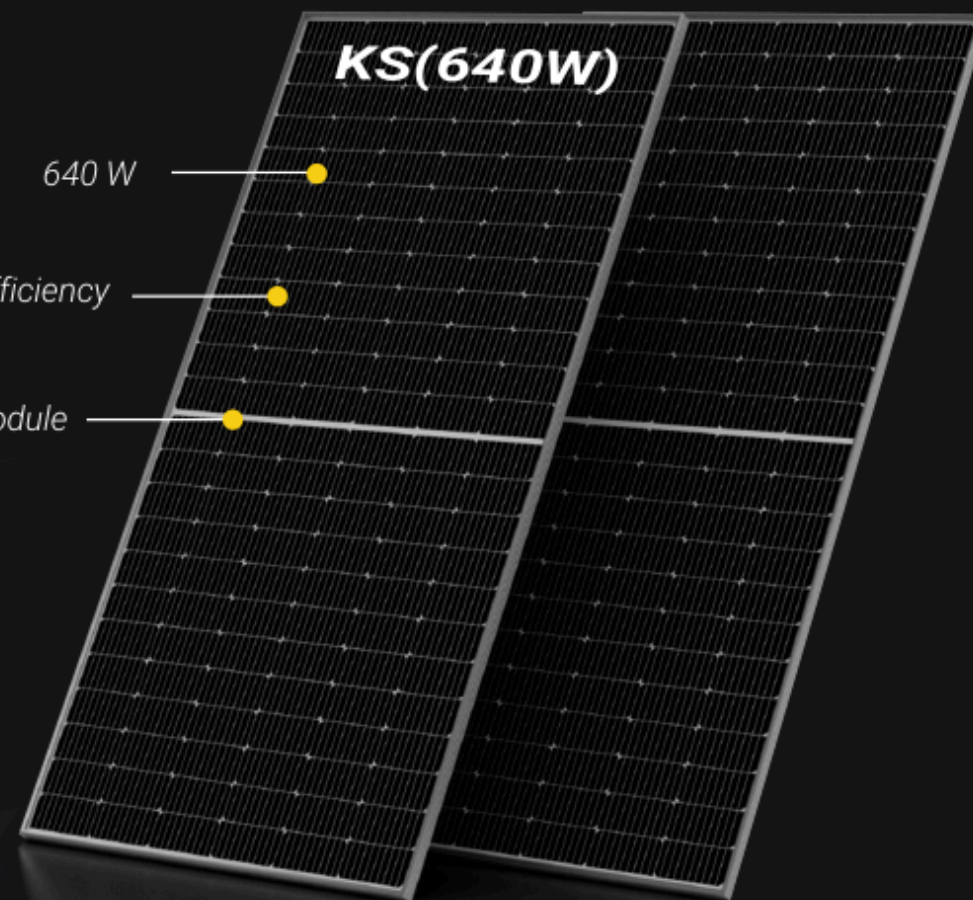

KS(600~630W)-144MBB

KS(630~650W)-132MTBRP

TOP SELLER

At the core of every panel is **N-type TOPCon cell technology** - the industry's latest advancement in solar efficiency. By using **ultra-thin passivated contacts**, TOPCon reduces energy loss, increases power output, and lowers degradation over time, achieving up to **24% cell efficiency**.
